

WORK ENVIRONMENTS: MAINTAINING OPERATIONS AND RESTART

PREPARING PEOPLE, PROJECTS AND
IT FOR THE TIME DURING AND AFTER
THE CORONAVIRUS CRISIS.

HOW WELL ARE YOU POSITIONED FOR THE DURATION OF THE PANDEMIC AND AFTER?

- › Is everybody fully informed, communication channels established, responsibilities defined, and next steps planned?
- › Are your managers in a position to successfully lead their staff in the virtual realm?
- › Do you have virtual leaders in the company who can communicate well online and moderate professionally in virtual environments?
- › Were you able to quickly deploy, adapt and implement processes, work resources and IT systems – especially for mobile/home office work – in a manner that is secure and meets requirements?
- › Has your existing IT infrastructure coped with the increased demands on performance (including greatly increased data transfer) and security (in particular, reliability, data protection, and protection against cyberattacks)?
- › Have you been able to rely on the results of regular IT emergency exercises?
- › Do you have an overview of the status of your current real estate projects: Schedule delays? Cost overruns? Contractual implications?
- › Do you have viable concepts for shutdown, vacant buildings, and recommissioning?
- › “How much office space do we still need?” – Subject your infrastructure to critical review: Will your premises meet your post-crisis needs?

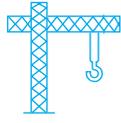

Can you answer 'yes' to all of the above questions?
Or do you need more information? Let's have a virtual
cup of coffee together and we'll answer your questions.
We are here to help!

PROJECT COOPERATION

THESE ARE THE TOPICS YOU SHOULD NOW HAVE ON YOUR RADAR

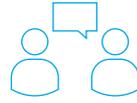

Organization

(Construction) projects

Leadership and management

People (teams, communication, moderation)

Workplace

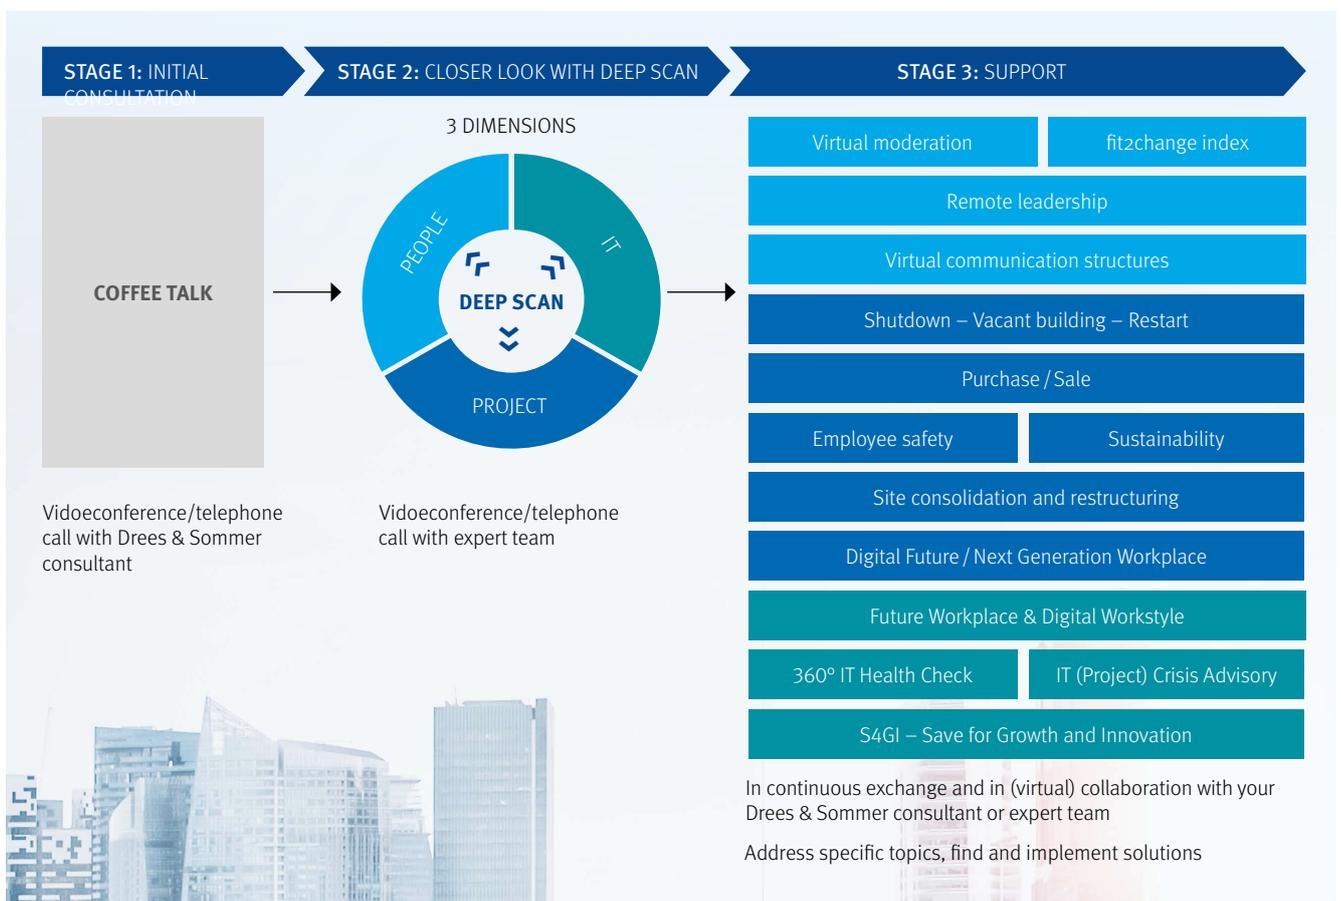

IT and virtual space

SHUT YOUR EYES AND HOPE FOR THE BEST?

Flying blind in a crisis can have disastrous consequences. But people who face the challenges with vision can emerge all the stronger. An integrated approach is required to chart a course into the future. Whether you face shutdown, maintaining operations, or a restart. Drees & Sommer, Intargia and Strasser & Strasser work together to guide you safely through the crisis with solutions in the dimensions of people, projects and IT.

HOW WE GUIDE YOU THROUGH THE CRISIS AND CREATE THE BASIS FOR THE TIME THEREAFTER

READY FOR A NEW NORMAL IN THE DIMENSIONS OF PEOPLE, IT AND PROJECTS!

CRISIS-PROOF MANAGEMENT OF CONSTRUCTION PROJECTS AND PROPERTIES

In a crisis, business as usual is suddenly no longer possible. Projects need to be reprioritized and new questions arise every day about ongoing or planned projects and established buildings. The fact that many measures can only be undertaken in the digital realm only adds to the difficulties. Now is the time to make the right decisions. We relieve you of key tasks and support you with simple, quick-to-implement solutions covering all aspects of your construction projects and properties, ensuring you have the right concepts for the future.

FLEXIBLE AND SECURE DESIGN OF IT INFRASTRUCTURE AND PROCESSES

IT landscapes have to be able to adapt quickly and flexibly to new processes. Measures need to be carefully examined to correctly assess the complexity of IT infrastructure and avoid causing system failures through quick fixes. We help you keep track of all relevant aspects of IT, and advise you on future-proof digital process solutions.

UNDERSTANDING PEOPLE AND THEIR NEEDS

The need for information and orientation is particularly great in times of crisis. Despite the spatial separation, managers must stay in touch with their teams and maintain the bond of trust. Collaboration between employees and the sense of community have an even greater influence on their wellbeing and performance. We ensure the creation of resilient (virtual) communication structures that meet the employees' needs. We work with you to answer the following questions: What have we practiced during the crisis and what have learnt from it? What aspects do we want to keep? And what will the new normal look like?

WE ARE AT YOUR SIDE

Drees & Sommer, Intargia and Strasser & Strasser: We are pooling our expertise to help you successfully navigate the challenges of the current coronavirus crisis and equip you for the time thereafter. As experts in change, leadership, communication and management, construction and real estate projects – and with IT and digitization specialists – we are people to help you!
