

Drees & Sommer once again receives award for project manager with strongest brand

The European Real Estate Brand Institute (EUREB) has now held its Real Estate Brand Awards on seven occasions, honouring Germany's strongest property brands. Drees & Sommer brings home the silverware in two categories with first place in the *Project Coordinator* category and second place in the *Real Estate Consultant* category.

Germany's Top 500 Commercial Real Estate Brands for 2017 have been decided: once again, Drees & Sommer has made it to first place as the strongest brand in the *Project Coordinator* category, thereby defending its industry top-dog position for the fourth year in a row. The company also achieved yet another impressive second place in the *Real Estate Consultant* category, holding onto that position for the third year in a row.

These awards are a way for the EUREB Institute to honour brands that succeed in distinguishing themselves from those of their competitors and play a leading role in the marketplace because of their professional brand leadership. Nearly 19,300 industry experts expressed their views in a representative survey this year on German and Austrian brands operating in the property sector.
