

Drees & Sommer Strengthens Consulting Expertise in Hamburg

International project management and consulting company Drees & Sommer is expanding the real estate consulting (REC) and facility management (FM) consulting services provided at its Hamburg location. As part of a strategic expansion of its competencies, the company has taken on all the staff of Surcon GmbH.

Drees & Sommer's new specialist colleagues have been working for the company since January 1, 2018. Established in 2006, Surcon offered strategic consulting services in the core area of integrated real estate management. The consulting services covered the three areas of facility management, process management and real estate management.

Thomas Häusser, Partner at Drees & Sommer SE, commented: 'We are delighted to have been joined at Drees & Sommer such an experienced and well-functioning real estate and facility management team, led by Mathias Krause and Jörn Katzer. Our new Hamburg colleagues have already carried out many exciting projects for prestigious clients, from new build projects and renovations to investing in real estate.'
